The Winning Brief: 100 Tips for Persuasive Briefing in Trial and Appellate Courts Bryan A. Garner

2004-02-13 Good legal writing wins court cases. In its first edition, *The Winning Brief* proved that the key to writing well is understanding the judicial readership. Now, in a revised and updated version of this modern

classic, Bryan A. Garner explains the art of effective writing in 100 concise, practical, and easy-to-use sections. Covering everything from the rules for planning and organizing a brief to openers that can capture a judge's attention from the first few words, these tips add up to the most compelling, orderly, and visually appealing brief that an advocate can present. In Garner's view, good writing is good thinking put to paper. "Never write a sentence that you couldn't easily speak," he warns-and demonstrates how to do just that. Beginning each tip with a set of quotable quotes from experts, he then gives masterly advice on building sound paragraphs, drafting crisp sentences, choosing the best words ("Strike pursuant to from your vocabulary."), quoting authority, citing sources, and designing a document that looks as impressive as it reads. Throughout, he shows how to edit for maximal impact, using vivid before-and-after examples that apply the basics of rhetoric to persuasive writing. Filled with examples of good and bad writing from actual briefs filed in courts of all types, *The Winning Brief* also covers the new appellate rules for preparing federal briefs. Constantly collecting material from his seminars and polling judges for their preferences, the second edition delivers the same solid guidelines with even more supporting evidence. Including for the first time sections on the ever-changing rules of acceptable legal writing, Garner's new edition keeps even the most seasoned lawyers on their toes and writing briefs that win cases. An invaluable resource for attorneys, law clerks, judges, paralegals, law students and their teachers, *The Winning Brief* has the qualities that make all of Garner's books so popular: authority, accessibility, and page after page of techniques that work. If you're writing to win a case, this book shouldn't merely be on your shelf-it should be open on your desk.

Destruction of Evidence Jamie S. Gorelick 1995-12-31 A practice manual as well as an authoritative resource, *Destruction of Evidence* analyzes issues from the standpoints of civil litigation, criminal litigation, and the laws of professional responsibility. *Destruction of Evidence* also discusses in-depth such areas as: the spoliation inference the tort of spoliation discovery sanctions ethics, and routine destruction Also included is an expanded discussion of discovery sanctions, including procedural issues, choice-of-law considerations, the requirements for preserving sanctions issues for appellate review, burdens of proof, and appellate review. The supplement keeps you up to date on the continuing development of the controversial torts of both first- and third party spoliation of evidence: Massachusetts has declined to recognize a cause of action in tort for intentional or negligent spoliation of evidence The Supreme Court of Mississippi did not recognize an independent cause of action for the intentional spoliation of evidence against first or third party spoliators Nevada declined to recognize an independent tort spoliation of evidence when weighed against the andquot;potentially endless litigation over a speculative loss, and by the cost to society of promoting onerous record and evidence retention policiesandquot; Constitutional implications in the realm of criminal law. Many states within the last year have been addressing the potential for due process violations when evidence is destroyed and are continuing to adopt and expand the rules dictated by Brady, Trombetta, and Youngblood. While each of these new jurisdictions refused to find due process violation, this trend recognizes the increased potential for constitutional violations when evidence is destroyed: Hawaii refused to find a constitutional violation where a police officer failed to save her completed police report, citing Brady The Supreme Court of Mississippi ruled that a defendant was not denied due process by spoliation of crime scene evidence, citing Trombetta Nevada, using a bad faith standard, ruled that an independent laboratory's failure to refrigerate a defendant's blood sample did not violate due process A New Jersey court did not find a due process violation where the police had lost a videotape of the administration of breath tests for a DUI charge Oklahoma ruled that a defendant's due process rights were not violated when the police destroyed latent crime scene fingerprints, citing Youngblood Using an exculpatory evidence standard, the Supreme Court of South Dakota ruled that the State's release of a rape victim's vehicle without notice to the defendant did not violate the defendant's due process rights.
