Rethinking School: How to Take Charge of Your Child's Education Susan Wise Bauer 2018-01-09
"If you read only one book on educating children, this should be the book.... With a warm, informative voice, Bauer gives you the knowledge that will help you flex the educational model to meet the needs of your child." –San Francisco Book Review Our K–12 school system isn't a good fit for all—or even most—students. It prioritizes a single way of understanding the world over all others, pushes children into a rigid set of grades with little regard for individual maturity, and

slaps "disability" labels on differences in learning style. Caught in this system, far too many young learners end up discouraged. This informed, compassionate, and practical guidebook will show you how to take control of your child's K–12 experience and negotiate the school system in a way that nurtures your child's mind, emotions, and spirit. Understand why we have twelve grades, and why we match them to ages. Evaluate your child's maturity, and determine how to use that knowledge to your advantage. Find out what subject areas we study in school, why they exist—and how to tinker with them. Discover what learning disabilities and intellectual giftedness are, how they can overlap, how to recognize them, and how those labels can help (or hinder) you. Work

who inspired generations of loyal readers. Acclaimed biographer Jeremy Treglown cuts no corners in humanizing this longstanding immortal of juvenile fiction. Roald Dahl explores this master of children's literature from childhood—focusing a tight lens on the relationship between Dahl and his mother, who lovingly referred to him as “Apple”—through to his death. Treglown deftly navigates Dahl's time as a fighter pilot in the Royal Air Force, exploring how the experience transformed many of the beliefs that influenced the English writer's work, including *The Gremlins*, which was commissioned by Walt Disney. A former editor of the *Times Literary Supplement*, Treglown discusses many of Dahl's most famous works, such as *James and the Giant Peach* and *Fantastic Mr.*

Fox, while also delving into his marriage to actress Patricia Neal, combing through letters and archives to show a man who could be both comic and vitriolic, thoughtful yet manipulative and irascible. Treglown highlights many of Dahl's literary achievements as well as his breakdowns and shortcomings, presenting a very personal and telling picture of the author and the inner turmoil that crippled him. Separating the man from the myth, Treglown's frank, intimate portrait of Dahl illuminates the contradictions within the mind of this beloved author, a man who could be both a monster and a hero. It is required reading for book lovers and film buffs alike.

set on the path of a gifted child, speeding headlong towards Oxford University. As her father sees it, discipline is everything if the family is to have any hope of making its mark on its adoptive country. However, as Rumi gets older and the family's stark isolation intensifies, numbers start to lose their magic for the young teenager: she abandons the rigid timetable of her afternoons and replaces equations with rampant spice abuse. As her longing for love and her parents' will to succeed deepen so too does the rift between generations. Gifted captures brilliantly the battle to come of age in an emotional and comic hinterland, where histories, arithmetic and cumin seeds all play a part. In a voice that is by turns very funny and fiercely acute

Lalwani vividly brings to life a young family's search for recognition and how that search can break a family apart. A story of high aspirations and deep desires, and of the sometime loneliness of childhood, Gifted is a remarkably passionate, assured and accessible debut.
